

## HOT TOPICS

### TENTATIVE PROGRAM UPDATE 30 JULY 2020

In this section, topics of significant scientific value will be discussed in the surgical, diagnostic or case management fields. Furthermore, results of prospective studies may be presented.

1. Ricardo **Carrau**, *United States of America*  
**TBC**
2. Paolo **Castelnuovo**, *Italy*  
**Skull base reconstruction**
3. Sebastien **Froelich**, *France*  
**Treatment strategies for large or giant petroclival meningiomas**
4. Paul **Gardner**, *United States of America*  
**Complications following endoscopic endonasal surgery**
5. Fred **Gentili**, *Canada*  
**Management strategies for Chordomas: have endoscopic techniques made any difference in outcome?**
6. Richard **Harvey**, *Australia*  
**Contemporary pituitary and sella access in an era of powered instrumentation**
7. Dirk **Kunst**, *The Netherlands*  
**Dutch national guideline for head and neck paragangliomas**
8. Michael **Link**, *United States of America*  
**Prospective Quality of Life analysis in Vestibular Schwannoma patients undergoing observation, radiation or surgery**
9. Richard **Mannion**, *United Kingdom*  
**UK National Vestibular Schwannoma audit: lessons learned**
10. Piero **Nicolai**, *Italy*  
**TBC**
11. Ben **Panizza**, *Australia*  
**Malignant perineurial spread from clinic to the lab and back**
12. Ernesto **Pasquini**, *Italy*  
**Transnasal transclival approach for clivus chordoma**
13. Mario **Sanna**, *Italy*  
**TBC**
14. Daniel **Simmen**, *Switzerland*  
**Multiportal approaches in extended skull base pathologies**

15. Carl H. **Snyderman**, *United States of America*  
**Team-Based Approach for the Management of Vascular Injury during Endoscopic Endonasal Surgery**
16. Aldo **Stamm**, *Brazil*  
**Endoscopic posterior fossa surgery, what are the challenges?**
17. Marcos **Tatagiba**, *Germany*  
**Surgical Management of 1,500 Vestibular Schwannomas in the Era of Radiosurgery with Focus on Tumor Control and Cranial Nerves Function**
18. Nick **Thomas**, *United Kingdom*  
**Petrous apex meningioma management**
19. Barbara **Vischioni**, *Italy*  
**Management of locally advanced sinonasal tumors: the RT point of view**
20. Anil **Nanda**, *United States of America*  
**Petroclival meningiomas management**
21. Michael **Gleeson**, *United Kingdom*  
**TBC**
22. Giovanni **Danesi**, *Italy*  
**The value of the "wait and scan policy" in acoustic neuroma management**
23. Lars **Poulsgaard**, *Denmark*  
**TBC**
24. Mario **Turri Zanoni**, *Italy*  
**Cranial base malignant tumors**
25. Sankhla **Suresh**, *India*  
**TBC**
