

## KEYNOTE LECTURES

### TENTATIVE PROGRAM UPDATE 30 JULY 2020

The Keynote Lectures will be hosted by high profile professionals and researchers in the field.

1. Siviero **Agazzi**, *United States of America*  
**Anatomy, techniques and Christopher Columbus: the never ending quest to flatten the skull base**
2. Omar **Al Salihi**, *United Kingdom*  
**LINAC based stereotactic radio surgery for skull base tumors**
3. Miguel **Aristegui**, *Spain*  
**Current status of decision making in surgical approach for Vestibular Schwannoma**
4. Patrick **Axon**, *United Kingdom*  
**Pressure related skull base pathology**
5. Robert **Behr**, *Germany*  
**ABI – what are the achievements, what the burden?**
6. Federico **Biglioli**, *Italy*  
**Actuality in facial reanimation**
7. Paolo **Cappabianca**, *Italy*  
**Treatment of craniopharyngiomas**
8. Paolo **Ferrolì**, *Italy*  
**Surgery of cavernous sinus lesions/  
Microvascular decompression for irritative cranial nerve syndromes**
9. Dan **Fliss**, *Israel*  
**Skull Base Surgery in the 21<sup>st</sup> century**
10. Nils-Claudius **Gellrich**, *Germany*  
**Evolution, achievements and visionary outlook in orbital surgery**
11. Jens **Lehmberg**, *Germany*  
**Cavernous sinus: a no-go area?**
12. James K. **Liu**, *United States of America*  
**Facial Nerve Preservation Strategy in Acoustic Neuroma Surgery: is maximal safe resection or adaptive hybrid surgery the answer?**
13. Diego **Mazzatenta**, *Italy*  
**EEA for Craniopharyngiomas**
14. Juan **Miranda - Fernandez**, *United States of America*  
**Innovations in cavernous sinus surgery**

15. Fernando **Muñoz**, *Spain*  
**Lessons learned after more than 250 endoscopic endonasal approaches**
16. Rupert **Obholzer**, *United Kingdom*  
**The rational management of Jugular and Vagal paragangliomas**
17. Roberto **Pareschi**, *Italy*  
**Posterior fossa meningiomas: surgical strategies**
18. Daniel M. **Prevedello**, *United States of America*  
**The Role of Endoscopic Endonasal Approaches for Anterior fossa tumors**
19. Shakeel R. **Saeed**, *United Kingdom*  
**Superior Semicircular Canal Dehiscence Syndrome - diagnosis and surgical outcomes**
20. Joerg **Schipper**, *Germany*  
**Hearing preservation & rehabilitation in VN's**
21. Arturo **Solares**, *United States of America*  
**Boundaries in endonasal cranial base surgery**
22. Elisabetta **Zanoletti**, *Italy*  
**Updating conventional surgical procedures with new techniques and new indications to vestibular schwannoma**
23. Sinan **Barazi**, *United Kingdom*  
**Facial pain syndromes including SUNCT relating to acromegaly**
24. Laura **Fariselli**, *Italy*  
**TBC**
25. Amir **Dehdashti**, *United States of America*  
**New strategies in large vestibular Schwannoma**
26. Davide **Locatelli**, *Italy*  
**Treatment strategies in pediatric endoscopic surgery: Craniopharyngiomas and other lesions**
27. Philippe **Hermann**, *France*  
**Complications in endoscopic surgery**
28. Paolo **Battaglia**, *Italy*  
**Endoscopic approaches to itf and ups**
29. Francesco **Di Meco**, *Italy*  
**TBC**
30. Francesco **Tomasello**, *Italy*  
**TBC**
